PROFILE

Growth marketer with a performance foundation — currently pursuing an MSc in Strategic Digital Marketing in Berlin. Experienced across paid acquisition support, content systems, campaign analytics, and audience-driven messaging. Built and managed multi-brand content pipelines, tracked KPIs across CTR, CPL, and engagement, and supported paid campaigns with measurable improvements in lead quality and conversion. Comfortable moving fast, working directly with founders, and using AI tools to build and iterate. Looking to own the full growth engine at an early-stage AI startup: experiments, content, acquisition, and the messaging that makes the product land.

EXPERIENCE

Togethina, Berlin — *Growth Marketing Intern*

March 2026 - Present

- Conducted audience and partner research to identify growth opportunities and inform go-to-market positioning
- Produced campaign content aligned to messaging strategy; supported planning and performance reporting cycles
- Contributed to cross-functional strategy sessions covering campaign KPIs, channel performance, and growth priorities

Socio Street Advertising LLP, India — *Account Manager*

August 2025 - October 2025

- Managed 5+ client accounts end-to-end, owning content strategy, editorial planning, and on-time delivery
- Drove ~30–45% engagement growth through structured content optimization and iterative creative testing
- Streamlined KPI reporting workflows, cutting turnaround time by ~20–25% and improving data accuracy for client reviews
- Reviewed and quality-controlled 30+ campaign assets per cycle, maintaining brand consistency and messaging standards across accounts

Shamoor Media Group, India — *Account Executive (Team Lead)*

September 2024 - August 2025

- Owned growth and content execution for 6+ brand accounts across Instagram and Meta, managing full editorial calendars and campaign delivery
- Drove ~30–45% engagement growth through audience-informed content optimization, trend-based formats, and rapid iteration cycles
- Shipped 20–30 posts/month per brand; maintained consistent output and messaging quality at volume across all accounts
- Led a cross-functional team of designers and content executives, coordinating workflows and enforcing deadlines across all brand accounts
